NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
to be held on May 19, 2006

PLEASE TAKE NOTICE that the Annual Meeting of Stockholders (the "Meeting") of Access Pharmaceuticals, Inc. (the "Company") will be held at the New York Athletic Club, 180 Central Park South, New York, New York 10019, on Tuesday, May 19, 2006, at 10:00 a.m., local time, for the following purposes:

1. To elect two Class 2 Directors to hold office for a term of three years and until their successors are elected and qualified.
2. To consider and act upon a proposal to amend the Company's Certificate of Incorporation, as amended, (the "Amendment") to effect a one-for-five reverse stock split (the "Reverse Stock Split") pursuant to which every five shares of the Company's common stock, par value \$.01 per share, ("Common Stock") outstanding on the effective date of the Amendment would be converted into one share of Common Stock. This proposal will decrease the number of outstanding shares of Common Stock from approximately 17,651,040 to 3,530,208. PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
To Be Held On May 19, 2006

This Proxy Statement is furnished by Access Pharmaceuticals, Inc., a Delaware corporation (the "Company"), to holders of its common stock, par value \$.01 per share (the "Common Stock"), in connection with the solicitation of proxies by our Board of Directors (the "Board") for use at our Annual Meeting of Stockholders (the "Meeting"), and at any and all adjournments or postponements thereof. The Meeting will be held on Tuesday, May 19, 2006 at 10:00 a.m., local time, at the New York Athletic Club, 180 Central Park South, New York, New York 10019. This Proxy Statement and the accompanying form of proxy is first being sent to holders of Common Stock on or about April 20, 2006. Our mailing address and the location of our principal executive offices are at 2600 Stemmons Freeway, Suite 176, Dallas, Texas 75207, (214) 905-5100.

A Stockholder signing and returning the enclosed proxy may revoke it at any time before it is exercised by voting in person at the Meeting, by submitting another proxy bearing a later date or by giving notice in writing to our Secretary not later than the day prior to the Meeting. All proxies returned prior to the Meeting will be voted in accordance with instructions contained therein or, if no choice is specified for one or more proposals in a proxy submitted by or on behalf of a Company stockholder, the shares represented by such proxy will be voted in favor of such proposals and in the discretion of the named proxies with respect to any other matters which may properly come before the Meeting.

At the close of business on March 30, 2006, the record date for the Meeting, the number of our outstanding shares of Common Stock that are entitled to vote was 17,651,040. We have no other outstanding voting securities. Each outstanding share of Common Stock is entitled to one vote on each proposal set forth in the enclosed proxy. A complete list of Company stockholders entitled to vote at the Meeting will be available for examination by any Stockholder for any purpose germane to the Meeting at our principal executive offices and at the New York Athletic Club, 180 Central Park South, New York, New York 10019, during normal business hours, at least ten days prior to the Meeting. Our Bylaws require that a majority of the shares entitled to vote, present in person or by proxy, shall constitute a quorum for the conduct of business at the Meeting. Abstentions and broker non-votes are counted as present for purposes of determining the presence or absence of a quorum for the transaction of business at the Meeting. For purposes of determining the outcome of a vote, abstentions are treated as shares present and entitled to vote.

Stockholders have the right to vote cumulatively for the election of Directors. This means that in voting at the Meeting, each Stockholder, or his proxy, may multiply the number of his shares by two (the number of directors to be elected) and then vote the resulting total number of shares for a single nominee, or distribute such votes on the ballot among the two nominees desired. The proxies submitted to the Board in response to this solicitation may, at the discretion of the proxy holder, cumulate the votes of the shares the proxies represent. However, the Board requires any Stockholder otherwise electing to exercise his cumulative voting rights, if voting in person, to so indicate prior to the beginning of the Meeting or if voting by proxy given to someone other than those designated by the Board in the solicitation to so indicate on said proxy.

For Proposal 1, directors will be elected by a plurality of shares present in person or represented by proxy at the Meeting, which means that the two individuals receiving the highest number of "For" votes will be elected directors. Abstentions and broker non-votes will have no effect on the voting results of Proposal 1. Proposals 2 and 3 will be approved upon the affirmative vote of a majority of the outstanding shares of Common Stock, which means that abstentions and broker non-votes will have the effect of a vote against such proposals. Proposals 4, 5 and 6 will be approved upon the affirmative vote of a majority of shares present in person or by proxy at the Meeting and entitled to vote on such proposals. Abstentions will have the effect of a vote against such proposals. Broker non-votes will have no effect on the vote for Proposal 4 and will have the effect of a vote against Proposals 5 and 6.

All expenses in connection with solicitation of proxies will be borne by us. We will also request brokers, dealers, banks and voting trustees, and their nominees, to forward this Proxy Statement, the accompanying form of proxy and our Annual Report for the fiscal year ended December 31, 2005 to beneficial owners and will reimburse such record holders for their expense in forwarding solicitation material. We expect to solicit proxies primarily by mail, but Company directors, officers and regular

employees may also solicit in person, by telephone or by fax.

The Board does not know of any matters which will be brought before the Meeting other than those matters specifically set forth in the Notice of Annual Meeting. However, if any other matter properly comes before the Meeting, it is intended that the persons named in the enclosed form of proxy, or their substitutes acting thereunder, will vote on such matter in accordance with the recommendations of the Board, or, if no such recommendations are made, in accordance with their best judgment.

This Proxy Statement should be read in conjunction with our Annual Report for the fiscal year ended December 31, 2005, including the financial statements and management's discussion and analysis of financial condition and results of operations for the fiscal year ended December 31, 2005 contained therein.

Corporate Governance Matters

Corporate Governance Practices and Board Independence

The Board has adopted a number of corporate governance documents, including charters for its Audit and Finance Committee, Compensation Committee and Nominating and Corporate Governance Committee, corporate governance guidelines, a code of business conduct and ethics for employees, executive officers and directors (including its principal executive officer and principal financial officer) and a whistleblower policy regarding the treatment of complaints on accounting, internal accounting controls and auditing matters. All of these documents are available on the Company's website at www.accesspharma.com under the heading "Investor Information," and a copy of any such document may be obtained, without charge, upon written request to the Company, c/o Investor Relations, 2600 Stemmons Freeway, Suite 176, Dallas, Texas, 75207. The Board has determined that the Company is a "Controlled Company" under applicable Securities and Exchange Commission ("SEC") rules and regulations.

Stockholder Communications with the Board

The Board has established a process for stockholders to send communications to it. Stockholders may send written communications to the Board or individual directors to Access Pharmaceuticals, Inc., Board, c/o Chief Executive Officer, 2600 Stemmons Freeway, Suite 176, Dallas, Texas, 75207. Stockholders also may send communications via email to akc@accesspharma.com with the notation "Attention: Chief Executive Officer" in the Subject field. All communications will be reviewed by the Chief Executive Officer of the Company, who will determine whether such communications are relevant and/or for a proper purpose and appropriate for Board review and, if applicable, submit such communications to the Board on a periodic basis.

Attendance of Directors at Annual Stockholder Meetings

All of the directors attended the 2005 annual stockholder meeting. Although the Company currently does not require directors to attend annual stockholder meetings, it does encourage directors to do so and welcomes their attendance. The Company generally schedules a Board meeting in conjunction with the Meeting and plans to continue to do so in the future. The Company expects that directors will attend annual stockholder meetings absent a valid reason.

Nomination and Election of Directors

When seeking candidates for director, the Nominating and Corporate Governance Committee may solicit suggestions from incumbent directors, management or others. After conducting an initial evaluation of a candidate, the committee will interview that candidate if it believes the candidate might be suitable to serve as a director. The committee may also ask the candidate to meet with Company management. If the committee believes a candidate would be a valuable addition to the Board and there is either a vacancy on the Board or the committee believes it is in the best interests of the Company and our stockholders to increase the number of Board members to elect that candidate, it will recommend to the full Board that candidate's election. Messrs. Davis and Alvino were appointed to the Board as a result of contractual obligations of the Company.

Before nominating a sitting director for reelection at an annual stockholder meeting, the committee will consider the director's performance on the Board and whether the director's reelection would be in the best interests of the Company's stockholders and consistent with the Company's corporate governance guidelines and the Company's continued compliance with applicable law, rules and regulations.

The Board believes that it should be comprised of directors with diverse and complementary backgrounds, and that directors should have expertise that, at a minimum, may be useful to the Company and may contribute to the success of the Company's business. Directors also should possess the highest personal and professional ethics and should be willing and able to devote an amount of time sufficient to effectively carry out their duties and contribute to the success of the Company's business. When considering candidates for director, the committee takes into account a number of factors, including the following:

- Independence from management;
- Age, gender and ethnic background;
- Relevant business experience;
- Judgment, skill and integrity;
- Existing commitments to other businesses;
- Potential conflicts of interest;
- Corporate governance background;
- Financial and accounting background;
- Executive compensation background; and
- Size and composition of the existing Board.

The Nominating and Corporate Governance Committee will consider candidates for director suggested by stockholders by considering the foregoing criteria and the additional information referred to below. Stockholders wishing to suggest a candidate for director should write to the Company, c/o Investor Relations, 2600 Stemmons Freeway, Suite 176, Dallas, Texas 75207 and include the following:

- The name and address of the stockholder and a statement that he, she or it is a stockholder of the Company and is proposing a candidate for consideration by the committee;
- The class and number of shares of Company capital stock, if any, owned by the stockholder as of the Record Date for the annual stockholder meeting (if such date has been announced) and as of the date of the notice, and length of time such stockholder has held such shares;
- The name, age and address of the candidate;
- A description of the candidate's business and educational experience;
- The class and number of shares of Company capital stock, if any, owned by the candidate, and length of time such candidate has held such shares;
- Information regarding each of the foregoing criteria the Board generally considers, other than the factor regarding Board size and composition, sufficient to enable the committee to evaluate the candidate;
- A description of any relationship between the candidate and any customer, supplier or competitor of the Company or any actual or potential conflict of interest;
- A description of any relationship or understanding between the stockholder and the candidate; and
- A statement that the candidate is willing to be considered and willing to serve as a director if nominated and elected.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) ("Section 16(a)") of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and holders of more than ten percent of a registered class of our equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of such securities. Directors, officers and 10% holders are required by SEC rules to furnish us with copies of all of the Section 16(a) reports they file.

Based solely on a review of reports furnished to us during the 2005 fiscal year or written representatives from our directors and executive officers, none of our directors, executive officers and 10% holders failed to file on a timely basis reports required by Section 16(a) during the 2005 fiscal year, except for Dr. Mazanet who filed one late Form 4, reporting one transaction.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee operates under a written charter adopted by the Board and is responsible for making all compensation decisions for the Company's named executives including determining base salary and annual incentive compensation amounts and recommending stock option grants and other stock-based compensation under our equity incentive plans.

Overall Objectives of the Executive Compensation Program

The purpose of our compensation plan is to attract, retain and motivate key management employees. It is our philosophy to pay our executives at levels commensurate with both industry levels and individual experience and performance. A primary consideration in developing our executive compensation programs is to link the long-term financial interests of executives with those of the Company and our stockholders. Throughout the 2005 fiscal year, the Compensation Committee reviewed compensation for comparable organizations in order to establish our total compensation program and to recommend awards under our equity incentive plans.

Base Salary Program

It is our policy to establish salaries at a level approximating the average of the competitive levels in comparable companies in the bio-medical industry and to provide annual salary increases reflective of an executive's performance, level of responsibility and position with the Company.

Compensation of Chief Executive Officer

On May 11, 2005, we announced that Kerry Gray resigned as President and Chief Executive Officer of the Company, effective as of May 10, 2005, (the "Resignation Date"). Mr. Gray resigned from the Company's Board and from all other positions held with the Company, effective as of the Resignation Date. The Company and Mr. Gray entered into a Separation Agreement dated as of May 10, 2005 (the "Separation Agreement"). Pursuant to the terms of the Separation Agreement, Mr. Gray has agreed to provide certain post-termination assistance to the Company. He also agreed to maintain the confidentiality of Company proprietary information and to a customary mutual release of claims with the Company. The Separation Agreement provides for an immediate cash payment to Mr. Gray of \$225,000 and payments of \$33,333.33 each month for a period of 18 months, which payments are secured by a lien on the Company's assets. The Company is required to issue 3,500 shares of the Company's common stock to Mr. Gray each month for a period of 18 months following the Resignation Date. The Separation Agreement also provides that all of Mr. Gray's outstanding stock options and shares of restricted stock immediately and fully vested and options remain exercisable for a period of two years.

On May 11, 2005, the Company announced that Rosemary Mazanet, M.D., Ph.D, has been named by the Board as the Company's Acting Chief Executive Officer, effective as of May 11, 2005 (the "Effective Date"). Her employment arrangement was memorialized in a Letter Agreement with the Company, dated May 10, 2005 (the "Employment Letter"). Dr. Mazanet's title is Acting Chief Executive

Officer and she reports directly to, and is subject to the direction of, the Company's Board. Dr. Mazanet is paid a weekly salary of \$7,500 and was granted a non-qualified stock option of 30,000 shares of the Company's common stock, with an exercise price equal to the fair market value on the date of grant. Dr. Mazanet's option vested monthly over a six month period. The Employment Letter also grants Dr. Mazanet similar employee benefits as the Company's other executive officers, D&O insurance coverage and a signing bonus of \$30,000. The Employment Letter provides for additional option or cash grants based on milestones to be agreed upon by Dr. Mazanet and the Company's Board.

Annual Incentive

Each year, the Compensation Committee evaluates the performance of the Company as a whole, as well as the performance of each individual executive. Factors considered include Company development, performance against objectives, advancement of our research and development programs, commercial operations, product acquisition, and in-licensing and out-licensing agreements. The Compensation Committee does not utilize formalized mathematical formulas, nor does it assign weightings to these factors. The Compensation Committee, in its sole discretion, determines the amount, if any, of incentive payments to be awarded to each executive based on an individual's targeted incentive payment. The Compensation Committee believes that analysis of our corporate growth requires subjectivity on the part of the Compensation Committee when determining incentive payments. The Compensation Committee believes that specific formulas restrict flexibility. Based on this criteria, for the 2005 fiscal year Dr. Mazanet was granted options to purchase 250,000 shares of Common Stock from the 2005 Equity Incentive Plan.

Stock Option Plans

The Board has adopted and our stockholders have approved our 2005 Equity Incentive Plan and 1995 Stock Awards Plan, as amended. The 2005 Equity Incentive Plan currently provides for the issuance of up to a maximum of 700,000 shares of our Common Stock to our employees, directors and consultants or any of our subsidiaries. The 1995 Stock Awards Plan provided for the issuance of up to a maximum of 2,500,000 shares of our Common Stock to our employees, directors and consultants or any of our subsidiaries. A total of 2,370,220 options were granted under the plan before it terminated. Options granted under both plans may be either incentive stock options or options which do not qualify as incentive stock options. In 2000, the Board adopted the 2000 Special Stock Option Plan and Agreement (the "2000 Plan"). The 2000 Plan provides for the award of options to purchase a maximum of 500,000 shares of the authorized but unissued shares of our Common Stock.

The stock option plans are administered by a committee of at least three non-employee members of the Board, chosen by the Board, and is currently administered by the Compensation Committee. During 2005, the Compensation Committee was composed of three directors, Herbert H. McDade, Jr., J. Michael Flinn and Max Link. The Compensation Committee presently is composed of Herbert H. McDade, Jr., Jeffrey B. Davis and Stephen B. Howell, MD. The Compensation Committee has the authority to determine those individuals to whom stock options should be granted, the number of shares to be covered by each option, the option price, the type of option, the option period, the vesting restrictions, if any, with respect to exercise of each option, the terms for payment of the option price and other terms and conditions of each option.

Our non-employee directors, who include members of the Compensation Committee, are eligible to receive options under the 1995 Stock Awards Plan and the 2005 Equity Incentive Plan. Each non-employee director is entitled to receive options to purchase 12,500 shares of our Common Stock on the date of each annual meeting of stockholders and options to purchase 20,000 shares of Common Stock when he/she is first appointed as a director.

Dr. Mazanet received options to purchase 30,000 shares of Common Stock in the 2005 fiscal year from the 1995 Stock Awards Plan and 250,000 shares of Common Stock in the 2005 fiscal year from the 2005 Equity Incentive Plan. On December 31, 2005, we had granted to Mr. Gray options under the 1995 Stock Awards Plan and the 2000 Plan to purchase an aggregate of 1,480,000 shares of Common Stock at a weighted average exercise price per share of \$3.52.

We also have a restricted stock plan, the 2001 Restricted Stock Plan, as amended, under which 400,000 shares of our authorized but unissued Common Stock have been reserved for issuance to certain employees, directors, consultants and advisors. The restricted stock granted under the plan generally vests over five years, 25% two years after the grant date with an additional 25% vesting on the next three anniversary dates. All stock is vested after five years. At December 31, 2005 there were 135,913 shares granted and 264,087 shares available for grant under the 2001 Restricted Stock Plan.

Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended, currently imposes a \$1 million limitation on the deductibility of certain compensation paid to each of our five highest paid executives. Excluded from this limitation is compensation that is "performance based." For compensation to be performance based it must meet certain criteria, including being based on predetermined objective standards approved by stockholders. In general, we believe that compensation relating to options granted under the 1995 Stock Awards Plan and 2000 Plan should be excluded from the \$1 million limitation calculation. Compensation relating to our incentive compensation awards do not currently qualify for exclusion from the limitation, given the discretion that is provided to the Compensation Committee in establishing the performance goals for such awards. The Compensation Committee believes that maintaining the discretion to evaluate the performance of our management is an important part of its responsibilities and inures to the benefit of our stockholders. The Compensation Committee, however, intends to take into account the potential application of Section 162(m) with respect to incentive compensation awards and other compensation decisions made by it in the future.

Conclusion

The Compensation Committee believes these executive compensation policies effectively serve the interests of the stockholders. The Compensation Committee believes that the various pay vehicles offered are appropriately balanced to provide increased motivation for executives to contribute to our overall future successes, thereby enhancing the value of the Company for the stockholders' benefit.

Based upon the Audit and Finance Committee's discussion with management and the independent accountants, and the Audit and Finance Committee's review of the representation of management, and the report of the independent accountants to the Audit and Finance Committee, the Audit and Finance Committee recommended to the Board that the Company include the audited consolidated financial statements in its Annual Report on Form 10-K for the 2005 fiscal year for filing with the SEC. PROPOSAL 2

PROPOSED AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO EFFECT THE REVERSE STOCK SPLIT

General

The Company proposes to amend its Certificate of Incorporation to effect a one-for-five reverse stock split (the "Reverse Stock Split") and will also provide for increasing the authorized number of shares of Common Stock after the Reverse Stock Split to 100,000,000. The increase in the number of authorized shares requires an amendment of the Certificate of Incorporation which is the subject of Proposal 3. If this Proposal 2 is approved by the stockholders, each FIVE shares of Common Stock, par value \$.01 per share, outstanding on the effective date of the Reverse Stock Split, (the "Effective Date") will be converted automatically into ONE share of Common Stock, par value \$.01 per share. To avoid the existence of fractional shares of Common Stock, stockholders who would otherwise be entitled to receive fractional shares of Common Stock shall receive a cash distribution in lieu thereof. The Effective Date is expected to be on or before June 30, 2006, but is anticipated to be as soon as practicable following the date of the Meeting.

Background of, and Reasons for, the Reverse Stock Split

In connection with the Company's February 2006 convertible note and warrant financing with a group of accredited investors led by SCO Capital Partners LLC, the Company currently does not have enough authorized Common Stock to issue upon conversion of all of the notes and exercise of all of the warrants. Therefore, the Company has contractually agreed to effect the Reverse Stock Split. ***If the Reverse Stock Split is not accomplished prior to June 30, 2006 the Company will be in default under the secured notes issued in such financing.*** Such notes are secured by substantially all of the assets of the Company.

On March 13, 2006 the Board adopted resolutions approving the Reverse Stock Split and directing that the Reverse Stock Split be placed on the agenda for the consideration of the stockholders at the Meeting.

The Board believes that the recent per share price of the Common Stock has had a negative effect on the marketability of the existing shares, the amount and percentage of transaction costs paid by individual stockholders and the potential ability of the Company to raise capital by issuing new shares. The Company believes there are several reasons for these effects, as summarized below:

There are significant restrictions imposed by most brokerage houses on the ability of their brokers to solicit orders or recommend the purchase of stocks, like ours, that trade on the Pink Sheets, and NASD Over-The-Counter ("OTC") Bulletin Board. In the majority of cases the purchase of stock is limited to unsolicited offers from private investors, who have to comply with policies and practices involving the completion of time-consuming forms that make the handling of lower-priced stocks economically unattractive. Additionally, most brokerage houses do not permit lower-priced stocks to be used as collateral for margin accounts or to be purchased on margin. Further, the Board believes that the current per share price of the Common Stock may limit the effective marketability of the Common Stock because of the reluctance of many brokerage firms and institutional investors to recommend lower-priced stocks to their clients or to hold them in their own portfolios. The brokerage commission on the purchase or sale of a lower-priced stock may also represent a higher percentage of the price than the brokerage commission on a higher-priced issue.

The opportunity to raise capital to support the Company's development activities has been reduced as a result of the delisting of the stock from AMEX, the recent price per share of the stock and the thin trading of the stock. These facts have significantly reduced the number of potential investors, increases the cost of raising capital limits and the types of offerings that can be made.

proposed Reverse Stock Split and the resulting anticipated increased price level will result in greater interest in the Common Stock by the financial community and the investing public.

The Board has determined that it would be appropriate for the Company to increase the proportionate number of authorized shares of Common Stock in order to have additional shares available for possible future acquisition or financing transactions and other issuances, or to satisfy requirements for additional reservations of shares by reason of future transactions which might require increased reservations. Such increase is the subject of Proposal 3. The Company has no present plans, agreements, understandings or arrangements regarding transactions expected to require the issuance of additional shares of Common Stock that would be authorized by this Proposal 2, other than those relating to currently outstanding options, warrants and convertible notes. If Proposal 2 is approved but Proposal 3 is not approved, the total authorized shares of Common Stock under the Certificate of Incorporation will remain at 50,000,000 shares.

Risks Associated with the Reverse Stock Split

There can be no assurances, however, that the foregoing will occur or that the market price of the Common Stock immediately after implementation of the proposed Reverse Stock Split will increase, and if it increases, no assurance that such increase can be maintained for any period of time, or that such market price will approximate five times the market price before the proposed Reverse Stock Split. In some cases, the total market capitalization of a company following a reverse stock split is lower, and may be substantially lower, than the total market capitalization before the reverse stock split. In addition, the fewer number of shares that will be available to trade will possibly cause the trading market of the Common Stock to become less liquid, which could have an adverse effect on the price of the Common Stock. The market price of our Common Stock is based on our performance and other factors, some of which may be unrelated to the number of our shares outstanding.

In addition, there can be no assurance that the Reverse Stock Split will result in a per share price that will attract brokers and investors who do not trade in lower priced stock or that it will increase the Company's ability to attract and retain employees and other service providers.

Effects of the Reverse Stock Split

General Effects. If this Proposal 2 is approved by the stockholders, the principal effect of the Reverse Stock Split will be to decrease the number of outstanding shares of Common Stock from 17,651,040 to approximately 3,530,208, based on share information as of March 30, 2006. Further, as a result of the February 2006 convertible note and warrant financing, the approval of either Proposal 2 or Proposal 3 would prevent the Company from being in breach of a contractual obligation pursuant to the convertible notes and warrants.

Existing Options and Warrants. Upon approval of Proposal 2, the number of shares of Common Stock subject to stock options or other similar rights authorized under the Company's stock option, stock equity incentive or stock purchase plans will automatically be proportionately adjusted for the one-for-five ratio provided for by the Reverse Stock Split. Further, the number of shares of Common Stock, subject to stock options granted to our directors, officers and employees under our stock option or equity incentive plans and the per share exercise price of these options will automatically be proportionately adjusted for the Reverse Stock Split so that the aggregate exercise price thereunder remains unchanged (i.e., adjusted exercise price times number of options remains unchanged).

Fractional Shares. In order that the Company may avoid the expense and inconvenience of issuing and transferring fractional shares of Common Stock after giving effect to the Reverse Stock Split, stockholders who would otherwise be entitled to receive a fractional share of Common Stock ("Fractional Stockholders") shall receive payment in cash in lieu of receiving a fractional share of Common Stock.

Effect on Market for Common Stock. The Reverse Stock Split may leave certain stockholders with one or more "odd-lots" of Common Stock, i.e. stock in amounts of less than 100 shares. These odd-lots may be more difficult to sell or require greater transaction cost per share to sell, than shares in even multiples of 100. On March 30, 2006, the closing sale price of the Common Stock on the Pink Sheets was \$.29 per share. Upon the effectiveness of the Reverse Stock Split, the Board shall make a proportional downward adjustment to the number of shares subject to outstanding options and warrants and other convertible securities, and a corresponding upward adjustment in the per share exercise or conversion prices to reflect the Reverse Stock Split.

Changes in Stockholders' Equity. As an additional result of the Reverse Stock Split, the Company's stated capital, which consists of the par value per share of Common Stock multiplied by the number of shares of Common Stock issued, will be reduced by approximately \$176,510 to \$35,302 on the Effective Date. Upon effectiveness of the Reverse Stock Split the stated capital will be decreased because the number of shares issued and outstanding will be reduced. Correspondingly, the Company's capital in excess of par value, which consists of the difference between the Company's stated capital and the aggregate amount paid to the Company upon the issuance by the Company of all currently outstanding Common Stock, will be increased by approximately \$141,208.

Anti-Takeover. Because a reverse stock split would result in an increased number of authorized but unissued shares of our Common Stock, it may be construed as having an anti-takeover effect, although neither the Board nor our management views this proposal in that perspective. However, the Board, subject to its fiduciary duties and applicable law, could use this increased number of authorized but unissued shares of our Common Stock to frustrate persons seeking to take over or otherwise gain control of us by, for example, privately placing shares of our Common Stock with purchasers who might side with the Board of Directors in opposing a hostile takeover bid. Shares of our Common Stock could also be issued to a holder that would thereafter have sufficient voting power to assure that any proposal to amend or repeal our Bylaws or certain provisions of the Certificate of Incorporation would not receive the requisite vote. Such uses of our Common Stock could render more difficult, or discourage, an attempt to acquire control of us if such transaction were opposed by the Board. The Company does not have any current plans, proposals or arrangements, written or otherwise, to engage in any business or investment opportunity which might result in the issuance of the authorized but unissued shares of our Common Stock not

already reserved for issuance upon exercise of currently outstanding options and warrants.

Dissenter's Rights

Dissenting stockholders have no appraisal rights under Delaware law or under the Company's Certificate of Incorporation and Bylaws in connection with the Reverse Stock Split.

Implementation of Reverse Stock Split

If Proposal 2 is approved by the stockholders and the Board continues to believe, as it currently does, that the Reverse Stock Split is in the best interests of the Company and its stockholders, the Reverse Stock Split will be effectuated by the filing of an amendment with the Secretary of State of the State of Delaware in accordance with the Delaware General Corporation Law. The Board reserves the right, notwithstanding stockholder approval, and without further action by the stockholders, to abandon or delay the filing of any amendment effectuating the Reverse Stock Split if at any time prior to the filing of any such amendment the Board determines, in its sole discretion, that the Reverse Stock Split would not be in the best interests of the Company and its stockholders.

Exchange of Shares and Payment for Fractional Shares

On or after the Effective Date, the Company will mail to each stockholder a letter of transmittal. A stockholder will be able to receive his shares of Common Stock to be issued upon the Reverse Stock Split and, if applicable, cash in lieu of a fractional share of Common Stock to be issued upon the Reverse Stock Split, only by transmitting to the Transfer Agent such stockholder's stock certificate(s) for shares of Common Stock outstanding prior to the Reverse Stock Split, together with the properly executed and

completed letter of transmittal and such evidence of ownership of such shares as the Company may require. Stockholders will not receive certificates for shares of Common Stock to be issued upon the Reverse Stock Split unless and until the certificates representing their shares of Common Stock outstanding prior to the Reverse Stock Split are surrendered.

STOCKHOLDERS SHOULD NOT FORWARD THEIR CERTIFICATES TO THE TRANSFER AGENT UNTIL THE LETTER OF TRANSMITTAL IS RECEIVED AND SHOULD SURRENDER THEIR STOCK CERTIFICATES ONLY WITH THEIR EXECUTED AND COMPLETED LETTERS OF TRANSMITTAL.

No scrip or fractional share certificates for Common Stock will be issued. A payment in lieu of fractional shares of Common Stock to be issued upon the Reverse Stock Split will be made to a Fractional Stockholder promptly after receipt of a properly executed and completed letter of transmittal and stock certificate(s) for all of his shares of Common Stock outstanding prior to the Reverse Stock Split.

There will be no service charges payable by the stockholders of the Company in connection with the exchange of their stock certificates.

Federal Income Tax Consequences

The following summary of the federal income tax consequences of the Reverse Stock Split is based on the Internal Revenue Code of 1986, as amended (the "Code"), existing and proposed Treasury regulations promulgated under the code, and administration and judicial interpretations, all as presently in effect or proposed and all of which are subject to change, possibly with retroactive effect, or different interpretations. The discussion is for general information only and is not intended as tax advice. This discussion does not address any state or local or foreign tax considerations. Certain stockholders, including insurance companies, tax-exempt organizations, financial institutions, broker-dealers, non-resident aliens, foreign corporations and persons who do not hold the Common Stock as a capital asset, may be subject to special rules not discussed below.

ACCORDINGLY, EACH STOCKHOLDER SHOULD CONSULT HIS TAX ADVISOR TO DETERMINE THE PARTICULAR TAX CONSEQUENCES TO HIM OF THE REVERSE STOCK SPLIT, INCLUDING THE APPLICATION AND EFFECT OF FEDERAL, STATE, LOCAL OR FOREIGN INCOME TAX AND OTHER LAWS.

The receipt of shares of Common Stock (excluding fractional shares of Common Stock) upon the Reverse Stock Split should be a nontaxable transaction under the Code for federal income tax purposes. Consequently, a stockholder should not recognize either gain or loss, or any other type of income, with respect to whole shares to whole shares received pursuant to the Reverse Stock Split. In addition, the aggregate tax basis of such stockholder's shares of Common Stock prior to the Reverse Stock Split will carry over as the tax basis of the stockholder's shares of Common Stock received upon the Reverse Stock Split. Each Stockholder will be required to allocate his basis in his shares of Common Stock ratably among the total number of shares of Common Stock upon the Reverse Stock Split. The holding period of the shares of Common Stock received upon the Reverse Stock Split will also include the holding period during which the stockholder held the Common Stock owned prior to the Reverse Stock Split, provided that such Common Stock was held by the stockholder as a capital asset on the Effective Date.

The receipt by a Fractional Stockholder of cash in lieu of a fractional share of Common Stock upon the Reverse Stock Split will be a taxable transaction for federal income tax purposes. The receipt of cash in lieu of fractional shares of Common Stock will result in gain or loss (rather than dividend income) to the Fractional Stockholder assuming, as the Company believes, that such cash distribution is undertaken solely for the purpose of saving the Company the expense and inconvenience of issuing and transferring fractional shares of Common Stock upon the Reverse Stock Split. Capital gain or loss will be long-term capital gain or loss if on the Effective Date the shares

of Common Stock have been held by the Fractional Stockholder for longer than one year.

Based on certain exceptions contained in regulations issued by the Internal Revenue Service, the Company does not believe that it or Fractional Stockholders will be subject to backup withholding or informational reporting with respect to the cash distributed to a Fractional Stockholder.

Circular 230 Disclosure: Internal Revenue Service regulations provide that, for the purpose of avoiding certain penalties under the Internal Revenue Code, taxpayers may rely only on opinions of counsel that meet specific requirements set forth in the regulations, including a requirement that such opinions contain extensive factual and legal discussion and analysis. Any tax advice that may be contained in this document does not constitute an opinion that meets the requirements of the regulations. Any such tax advice therefore cannot be used, and was not intended or written to be used, for the purpose of avoiding any federal tax penalties that the Internal Revenue Service may attempt to impose. Because any such tax advice could be viewed as a “marketed opinion” under the Internal Revenue Service regulations, those regulations require us to state that any such tax advice was written to support the “promotion or marketing” of the matters set forth in this document. Each recipient of this document with whom we do not have an attorney-client relationship should seek advice based on that person’s particular circumstances from an independent tax advisor.

Accounting Matters

The Reverse Stock Split will not affect the par value of our Common Stock. As a result, as of the effective time of the Reverse Stock Split, the stated capital on our balance sheet attributable to our Common Stock will be reduced proportionately, and the additional paid-in capital amount will be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our Common Stock will be restated because there will be fewer shares of our Common Stock outstanding.

UNLESS OTHERWISE INDICATED THEREON, THE ACCOMPANYING PROXY WILL BE VOTED FOR APPROVAL OF THE REVERSE STOCK SPLIT. THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” APPROVAL OF THE REVERSE STOCK SPLIT.

Proposal 2 will be approved upon the affirmative vote of a majority of the outstanding shares of Common Stock of the Company on the Record Date.

PROPOSAL 3

PROPOSED AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

Reasons for the Amendment

Approval of the proposed amendment will allow the Company to maintain sufficient shares of Common Stock for future business and financial purposes. The proposed amendment would increase the number of authorized shares of Common Stock from 50,000,000 shares to 100,000,000 shares. Authorized but unissued shares of Common Stock may be used by the Company for any purpose permitted under Delaware law, including but not limited to, paying a stock dividend to stockholders, raising capital, providing equity incentives to employees, officers and directors, and entering into transactions that the Board believes provide the potential for growth and profit. The Company periodically considers the advisability of paying a stock dividend when cash dividends are considered. Authorized but unissued shares of Common Stock may also be used to oppose a hostile takeover attempt or to delay or prevent a change in control of the Company, although the Company has no present intention to issue shares for such purpose. Further, future acquisitions are a key component of growth and, from time to time, consideration for acquisitions may include the issuance of Common Stock. The Company currently has no arrangements, agreements or understandings for the issuance or use of the additional shares of Common Stock proposed to be authorized., except that, as a result of the February 2006 convertible note and warrant financing, the Company currently does not have enough authorized Common Stock to issue upon conversion of all of the notes and exercise of all of the warrants. As a result, unless either Proposal 2 or Proposal 3 is approved, the Company would be in breach of its contractual obligations pursuant to the convertible notes and warrants.

Under the proposed amendment, each of the newly authorized shares of Common Stock will have the same rights and privileges as currently authorized Common Stock. Adoption of the proposed amendment will not affect the rights of the holders of currently outstanding Common Stock of the Company nor will it change the par value of the Common Stock.

Background Information

The authorized capital of the Company currently consists of 50,000,000 shares of Common Stock. The number of shares of Common Stock outstanding as of the Record Date for the Meeting was 17,651,040, which does not include 819 shares that the Company holds as treasury stock. As of such date 27,742,272 shares were reserved for issuance under the Company’s currently outstanding convertible notes and 23,108,221 shares were reserved for issuance upon exercise of currently outstanding warrants and options. The Company currently does not have enough authorized shares of Common Stock to allow for such conversions and exercises. Shares of Common Stock are also required for benefit plans for employees and directors.

If the proposed amendment is adopted, it will become effective upon filing of a Certificate of Amendment to the Company's Certificate of Incorporation with the Delaware Secretary of State, which the Company expects to occur as soon as practicable after the Meeting. The Board reserves the right not to file the proposed amendment, even if it is approved, if the Board determines, in its sole discretion, that the amendment and the filing thereof is no longer in the best interests of the Company. The Board also reserves the right, even if the proposed amendment is approved, not to effect any of the foregoing transactions or other transactions involving authorized shares of Common Stock if it determines in its sole discretion that any such transaction is not in the best interests of the Company.

UNLESS OTHERWISE INDICATED THEREON, THE ACCOMPANYING PROXY WILL BE VOTED FOR APPROVAL OF THE INCREASE IN NUMBER OF AUTHORIZED SHARES OF COMMON STOCK. THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE INCREASE IN NUMBER OF AUTHORIZED SHARES OF COMMON STOCK.

Proposal 3 will be approved upon the affirmative vote of a majority of the outstanding shares of Common Stock of the Company on the Record Date.

PROPOSAL 4

PROPOSED AMENDMENT OF THE COMPANY'S 2005 EQUITY INCENTIVE PLAN

The Board has authorized, subject to stockholder approval, an increase in the number of shares available under the Company's 2005 Equity Incentive Plan (the "Plan") from 700,000 to 5,000,000. The Board believes that this is an appropriate amount of options to be included in the plan given the number of currently outstanding shares options, warrants and convertible securities. The Plan is a successor plan to the Company's 1995 Stock Option Plan under which the Company could grant a total of 2,500,000 options through December 31, 2005.

Purpose. The purpose of the Plan is to attract and retain the best available personnel for positions of substantial responsibility and to provide additional incentive to employees and directors of and advisers and consultants to the Company. The purpose of the proposed amendment is to provide the Company with additional capacity to award stock options to existing personnel and to attract qualified new employees, directors, advisers and consultants through grants of stock options.

Administration. The Plan is administered by the Compensation Committee. During 2005, the Compensation Committee was composed of three directors, Herbert H. McDade, Jr., J. Michael Flinn and Max Link. The Compensation Committee presently is composed of Herbert H. McDade, Jr., Jeffrey B. Davis and Stephen B. Howell, MD. Subject to the provisions of the Plan, the Compensation Committee has discretion to determine when awards are made, which employees are granted awards, the number of shares subject to each award and all other relevant terms of the awards. The Compensation Committee also has broad discretion to construe and interpret the Plan and adopt rules and regulations thereunder.

Eligibility. Awards may be granted to persons who are employees of the Company whether or not officers or members of the Board and directors of or advisers or consultants to the Company or of any of the Company's subsidiaries. No election by any such person is required to participate in the Plan.

Shares Subject to the Plan. The shares issued or to be issued under the Plan are shares of the Common Stock, which may be newly issued shares or shares held in the treasury or acquired in the open market. Previously, no more than 700,000 shares could be issued under the Plan. The foregoing limit is subject to adjustment for stock dividends, stock splits or other changes in the Company's capitalization.

Stock Options. The Committee in its discretion may issue stock options which qualify as incentive stock options under the Internal Revenue Code or non-qualified stock options. The Committee will determine the time or times when each stock option becomes exercisable, the period within which it remains exercisable and the price per share at which it is exercisable, provided that no incentive stock option shall be exercised more than 10 years after it is granted and no other options shall be exercised more than 10 years and one day after it is granted, and further provided that the exercise price of any incentive stock option shall not be less than the fair market value of the Common Stock on the date of grant. The closing price of the Common Stock on the Pink Sheets on March 30, 2006 was \$0.29 per share.

Payment for shares purchased upon exercise of an option must be made in full in cash or check, by payment through a broker in accordance with Regulation T of the Federal Reserve Board or by such other mode of payment as the Committee may approve, including payment in whole or in part in shares of the Common Stock, when the option is exercised. No option is transferable except by will or the laws of descent and distribution or pursuant to a qualified domestic relations order, as defined by the Code or in Title I of the Employee Retirement Income Security Act of 1974, as amended.

Notwithstanding any other provision of the Plan, each non-employee director is also entitled to receive options to purchase 12,500 shares of Common Stock on the date of each annual meeting of stockholders and options to purchase 20,000 shares of Common Stock when he or she is first appointed as a director.

Tax Considerations. The following is a brief and general discussion of the Federal income tax rules applicable to awards under the Plan. With respect to an incentive stock option, an employee will generally not be taxed at the time of grant or exercise, although exercise of an incentive option will give rise to an item of tax preference that may result in an alternative minimum tax. If the employee holds the shares acquired upon exercise of an incentive stock option until at least one year after issuance and two years after the option grant, he or

she will have long-term capital gain (or loss) based on the difference between the amount realized on the sale or disposition and his or her option price. If these holding periods are not satisfied,

then upon disposition of the shares the employee will recognize ordinary income equal, in general, to the excess of the fair market value of the shares at time of exercise over the option price, plus capital gain in respect of any additional appreciation. With respect to a non-qualified option, an employee will not be taxed at the time of grant; upon exercise, he or she will generally realize compensation income to the extent the then fair market value of the stock exceeds the option price. The Company will generally have a tax deduction to the extent that, and at the time that, an employee realizes compensation income with respect to an award.

Any tax deductions the Company may be entitled to in connection with awards under the Plan may be limited by the \$1 million limitation under Section 162(m) of the Code on compensation paid to any of our chief executive officer or other officers whose compensation is required to be disclosed in this Proxy Statement. This limitation is further discussed in the Compensation Committee Report on Executive Compensation.

For purposes of this summary, we have assumed that no award will be considered “deferred compensation” as that term is defined for purposes of the federal tax rules governing nonqualified deferred compensation arrangements, Section 409A of the Code, or, if any award were considered to any extent to constitute deferred compensation, its terms would comply with the requirements of that legislation (in general, by limiting any flexibility in the time of payment). For example, the award of a non-qualified stock option with an exercise price which is less than the market value of the stock covered by the option would constitute deferred compensation. If an award includes deferred compensation, and its terms do not comply with the requirements of these tax rules, then any deferred compensation component of the award will be taxable when it is earned and vested (even if not then payable) and the recipient will be subject to a 20% additional tax.

Finally, Internal Revenue Service regulations provide that, for the purpose of avoiding certain penalties under the Internal Revenue Code, taxpayers may rely only on opinions of counsel that meet specific requirements set forth in the regulations, including a requirement that such opinions contain extensive factual and legal discussion and analysis. Any tax advice that may be contained in this document does not constitute an opinion that meets the requirements of the regulations. Any such tax advice therefore cannot be used, and was not intended or written to be used, for the purpose of avoiding any federal tax penalties that the Internal Revenue Service may attempt to impose. Because any such tax advice could be viewed as a “marketed opinion” under the Internal Revenue Service regulations, those regulations require this document to state that any such tax advice was written to support the “promotion or marketing” of the matters set forth in this document.

UNLESS OTHERWISE INDICATED THEREON, THE ACCOMPANYING PROXY WILL BE VOTED FOR APPROVAL OF THE AMENDMENT TO THE COMPANY’S 2005 EQUITY INCENTIVE PLAN. THE BOARD OF

DIRECTORS RECOMMENDS A VOTE FOR THE AMENDMENT TO THE COMPANY’S 2005 EQUITY INCENTIVE PLAN.

PROPOSAL 6

STOCKHOLDER PROPOSAL

Woodward Partners, a private investment group which holds and controls 362,700 shares of common stock, has proposed the adoption of the following resolution and has furnished the following statement in support of its proposal:

RESOLVED: That, effective immediately, the Company, hereby adopts a mandatory retirement age of 70 years of age for members of its Board.

Supporting Statement: Woodward Partners believes that imposing a mandatory retirement age for its Directors will assist the Company with succession planning and ensure that the Board periodically benefits from the fresh ideas, viewpoints and expertise of new members. Under the mandatory retirement policy, no person may be elected or re-elected as a director of the Company if at that time of his or her election or reelection he or she shall have attained the age of 70 years. The term of any Director who shall have attained such age while serving as a director shall terminate effective immediately upon his or her seventieth birthday. Woodward Partners believes that the adoption of a mandatory retirement policy will contribute to improved corporate governance of the Company and will benefit the Company and its shareholders in the long term.

The Board recommends a vote AGAINST this proposal.

The Company is not against the notion of implementing an age limit for directors. The Company agrees that the implementation of an age limit policy may “ensure that the Board periodically benefits from fresh ideas, viewpoints and expertise of new members.” However, the Company does not believe implementation of the above stated stockholder proposal, in the manner presented, would either (i) “assist the Company with succession planning,” or (ii) “contribute to improved corporate governance,” as suggested by the stockholder proposal.

Succession Planning. The implementation of Proposal 6 would not assist the Company with succession planning. Should this Proposal 6 be approved, two of the Board’s current directors would be forced to immediately resign, and another director would be forced to resign shortly thereafter, upon his 70th birthday. In essence, the Company would lose 3 independent directors in a matter of months, without current prospects for replacement. Such occurrences in no way assist the Company with succession planning, but in fact produce the opposite result—disruption of the Company’s plans of succession. Forcing the retirement of a director on his/her birthday, does not assist with succession planning. Rather, permitting directors to serve out the term for which elected, better permits the Company to plan for the future, and also follows the directive of the shareholders who have previously elected directors to their full terms of service as

directors.

Corporate Governance. The implementation of Proposal 6 would not contribute to improved corporate governance. All three directors who would be forced to resign in the near future have been determined by the Board to be independent under applicable rules and regulations. Therefore, the resignation of these directors would not only upset the composition of the Board and of the Board's committees, but would also cause the Company to no longer have a majority of independent directors on the Board.

Should the stockholders vote against this Proposal 6, the Company shall adopt an alternate age limit policy whereby no individual would be permitted to stand for election or reelection as director after the attainment of 70 years of age. Such policy however, would not require any director of the company to retire upon his/her 70th birthday, or on the date of the annual meeting if such director is already 70 years of age—as would be required by Proposal 6 if approved. Adopting an age limit policy on the Company's terms, rather than as proposed in Proposal 6, would permit the Company the time required for

27

succession planning, good corporate governance, and not immediately be cause for concern with respect to the independence of the Board.

UNLESS OTHERWISE INDICATED THEREON, THE ACCOMPANYING PROXY WILL BE VOTED AGAINST A MANDATORY AGE OF RETIREMENT. THE BOARD OF DIRECTORS RECOMMENDS A VOTE AGAINST A MANDATORY AGE OF RETIREMENT.

Proposal 6 will be approved upon the affirmative vote of a majority of shares present in person or represented by proxy at the Meeting and entitled to vote on such proposal.
